Jai Gawande

Software Developer

Work Experience

Application Operations Engineer | **Accenture (contract)** | Mumbai | 2022-2023

I worked for Accenture for eight months on a project with Axis Bank that included hands-on experience in technologies like PL/SQL, Linux commands, and data analysis. In addition, I have worked on applications such as the Axis Remit Connect (ARC), XMM, XMM India, and FircoSoft. The primary responsibility of the job is to resolve user transaction issues, monitor the health of the application, deploy patches, and reboot the application on a weekly basis.

Skills

Python | Django | Flask | REST API | HTML & CSS | React Basic | JavaScript | PL/SQL | MySQL

Projects

- E-commerce (React JS) - https://github.com/Jai-eng-gif/E-commerce
